

# NEAMUL HAQUE KHAN

Senior Software Engineer • Team Lead • Full-Stack .NET Developer

Dhaka, Bangladesh • +8801521109325 • neamulhaque.naem@gmail.com • [LinkedIn](#) • [Portfolio](#)

## PROFESSIONAL SUMMARY

Senior Software Engineer and Team Lead with **8+ years** of experience delivering enterprise web applications and backend platforms across .NET, SQL Server, JavaScript, Angular, and Java ecosystems. Currently serving in a development leadership role while remaining hands-on across architecture, full-stack implementation, deployment, and GenAI initiatives including RAG, vector search, and AI-assisted engineering workflows.

## CORE SKILLS

|                                                                                                     |                                                                                               |
|-----------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------|
| <b>Backend:</b> C#, .NET / ASP.NET Core, ASP.NET MVC, EF Core, REST APIs, Java Spring Boot          | <b>Frontend:</b> JavaScript, jQuery, Angular, HTML5, CSS, Bootstrap                           |
| <b>Data:</b> SQL Server, relational design, stored procedures, triggers, data migration             | <b>Architecture:</b> Microservices, SaaS, SOLID, DI, Repository Pattern, Layered Architecture |
| <b>AI / GenAI:</b> RAG, vector databases, enterprise knowledge retrieval, AI agents, AI code review | <b>Delivery:</b> Azure DevOps, Docker, IIS, Git, Apache Superset, production deployment       |

## PROFESSIONAL EXPERIENCE

- Ernst & Young (EY)** | [Senior Software Engineer](#) | [Team Lead](#)

May 2022 - Present

  - Serve as Dev Lead, providing technical direction while remaining hands-on with architecture, implementation, code review, delivery, and deployment.
  - Led backend development for ESG Factsheet, a highly configurable CMS, and helped take the product from implementation through release and deployment.
  - Worked as a Full-Stack Developer on a marketing automation platform across backend services, persistence, APIs, web UI, and campaign-oriented workflows.
  - Implemented GenAI solutions including a RAG chatbot with vector search over RDBMS and file-system sources, plus task-specific AI code-review agents and engineering workflows.
- Summit Communications Limited** | [Software Engineer](#)

Dec 2020 - Mar 2022

  - Developed an automated Approval Management System using .NET 5, jQuery, and SQL Server, supporting configurable digital approval workflows.
  - Designed relational database components, stored procedures, and triggers; also handled deployment, data migration, maintenance, and production support.
- IT Grow Division Ltd.** | [Software Engineer](#)

Mar 2018 - Dec 2020

  - Developed backend services and web applications using ASP.NET, ASP.NET Core, SQL Server, and IIS following SOLID and Agile engineering practices.
  - Contributed to secure.instaforex.com and related services covering account onboarding, verification, payments, and REST API development.
- RRMSense Global Systech Limited** | [Software Engineer](#)

Nov 2017 - Jan 2018

  - Performed software performance and usability testing and supported application quality validation activities.

## SELECTED PROJECTS

### **ESG Management Platform** | [Azure DevOps](#) | [Java Spring Boot](#) | [Angular](#) | [Microservices](#) | [Superset](#)

Enterprise ESG platform for automating data collection and supporting environmental, social, and governance reporting. Contributed within a SaaS microservice architecture and integrated reporting through Apache Superset.

### **ESG Factsheet - Configurable CMS** | [Backend Development](#) | [Configurable Content](#) | [Deployment](#)

Highly configurable CMS for ESG factsheet content and presentation. Worked as Team Lead with a backend focus, guiding implementation and supporting end-to-end delivery through production deployment.

### **Marketing Automation Platform** | [.NET](#) | [JavaScript](#) | [SQL Server](#) | [Full Stack](#)

Campaign-oriented marketing automation application. Worked across backend services, persistence, APIs, UI functionality, and workflow implementation as a Full-Stack Developer.

### **GenAI RAG Chatbot** | [RAG](#) | [Vector Database](#) | [RDBMS](#) | [File System](#)

Implemented a retrieval-augmented chatbot that grounds LLM responses in enterprise knowledge retrieved through vector search from relational data and file-system documents.

### **AI Engineering Automation** | [AI Agents](#) | [Code Review](#) | [Task-Specific Instructions](#)

Implemented AI-driven development workflows with task-specific instructions and specialized code-review agents for repeatable engineering tasks and focused quality checks.

## EARLIER PROJECT HIGHLIGHTS

**Approval Management System:** .NET 5, jQuery, SQL Server - dynamic approval workflows, architecture, deployment, maintenance, and production support.

**OPUS Workflow Management System:** ASP.NET MVC, jQuery, SQL Server - developed three modules and supervised delivery of an additional module.

**InstaForex Services & Client Portal:** ASP.NET Core, REST APIs, .NET Web Forms - API development, documentation, account workflows, and client-portal features.

## EDUCATION

### **B.Sc. in Software Engineering**

American International University-Bangladesh (AIUB), Dhaka  
CGPA: 3.15

## CERTIFICATIONS

### **C# Advanced Topics: Prepare for Technical Interviews**

Udemy

### **Angular - The Complete Guide**

Udemy

### **ChatGPT & Generative AI - The Complete Guide**

Udemy

### **Python for Data Science and AI**

Coursera

### **What is Data Science?**
